A. S. WATSON & CO.,
LIMITED

MANUFACTURERS OF
AERATED WATERS.

AERATED WATERS of
our manufacture are sold throughout
the Far East and are invariably pre-
ferred on account of their
superiority.

ABSOLUTELY PLEASANT &
REFRESHING. They are equalled
by no other.

THE PRICES are only half those
charged in England.

WATER, 1/-; AERATED RED
BY US are acknowledged by the lead-
ing English makers to be equal to those
of their own production.

Sir Edward Franklin is a director,
F.R.S. M.A., & the greatest living
authority on Water, reports as follows:

"It possesses an extremely high
degree of organic purity and is
of most excellent quality for
drinking."

There were 9 cases of plague yesterday
and deaths.

The Pacific Mail Company's steamer China
has been chartered by the United States Go-
vernment.

At the Magistracy yesterday a Hungarian
mechanic named Gheorghe Sherer was fined \$3 or
10 days for disorderly conduct in the Austrian
Consulate at Pavao East on Wednesday.

We hear that a project for the laying of a
tramway through the hills from east to west is
likely to be launched shortly. It is proposed
that electricity shall be the motive power.

Yesterday Lo Fink, the ticket collector on
the launch Morning Star, asked a Chinaman for
his fare when the man said it was not necessary,
as he had a ticket, at the same time producing a
ticket dated April 7th, 1893. On the strength
of this he was told that his ticket had been
stolen from him it was obsolete, so it had
to pay again. The answer to the question is
that electricity will be the motive power.

An official notification was issued at Manila
on the 1st May which, after reciting that in
view of the state of war existing it was deemed
to take steps to prevent a general raiding
from the enemy, it was ordered to prohibit
the same, receiving indirect aid, prohibitions from
the date named until further orders the ex-
traction of money of any kind whatsoever.

A second article makes an exception in favour
of persons leaving the islands, who are allowed
to take with them such sum not exceeding \$500
as the Customs authorities may judge
reasonable for their personal expenses. Persons
contravening the provisions of the order are to
be tried by military law as dealers in contri-
bution of war. The order applies, not to Manila
only, but to the whole of the Philippines.

The Northern Territorial Times (Port Darwin)
of the 2nd May says:—"Considerable surprise
was expressed last week when it was
known that 33 Japanese had arrived for
their port in the as Changsha. The statement
was true enough, too, as that number did have
passages booked for Port Darwin. It got
around somehow that the 33 were to be sup-
plied by another hundred or two by the
next incoming China Navigation steamer from
Nanking, and as far as I can make out the matter
is one of invasion. The fuel in relation
to the amount of invasion. The fuel in relation
to the Chinese ship is the very best.

Selling shares in public companies by auction
would seem sometimes to give favourable re-
sults—for the seller. At Bangkok the
Transvaal Colonists and others are holding
Mr. A. C. P. Chappell, who is leaving for
the Cape in a month. In this way Mr.
Chappell, who failed to find any antecedents
and thought there was little difficulty in
disposing of the shares for sale, although the
shares did not turn out so well. The first
lot consisted of five shares and quite a few
more, and the next lot, consisting of
shares, were also purchased by Mr. Stewart
(29 shares) at 107 and the remainder 50
shares went to him at the same figure." Dr
Hayes rather amused the meeting when he told
them he had bought 10 shares the day before
for 120.

Adelaide, 12th May.
The reported disturbance in the Spanish provinces has on the increase, owing to the great distress which prevails.

Adelaide, 13th May.
The Spanish Cortes is relinquishing the proposed taxation owing to the excited state of the populace.

MASSACRE OF MISSIONARIES IN SIERRA LEONE.

London, 6th May.
Now has been received that several American and native missionaries working under an American Missionary Society, had been murdered in Sierra Leone.

The white missionaries murdered were Mr. and Mrs. Cain, and Misses Archibald Hartfield, and Schenck.

In consequence of the state of affairs in Sierra Leone, H. M. S. *Bittern* was soon en route from the first class of the Channel Squadron, having orders to that effect.

THE GERMAN FEDERAL COUNCIL.

London, 7th May.
Speaking at a banquet given by the Emperor to the German Federal Council the Emperor urged all Germans to work for the Empire that they would be able to meet their God and the old Emperor with a clean con-

science.

BRITISH TRADE.

London, 6th May.

According to the returns of the Board of Trade, the imports into the United Kingdom during the month of April show an increase in value of £1,101,111, and the exports decrease in value of £2,011,111 compared with the corresponding period of last year.

NAVAL EXPENSE AT ALBANY.

London, 6th May.

Mr. Austin Chamberlain, M.P., First Lord of the Admiralty, has stated that the Admiralty is unable to sustain the present cost of the Western Australian Government for the establishment of a naval base at Albany.

CANADIAN FISHERIES.

London, 6th May.

Canadian furriers armed with Maxim guns are protecting the fisheries.

CRICKET IN ENGLAND.

London, 6th May.

In the cricket match, Marylebone C. C. and Grand v. Sussex, J. T. Hearne and A. E. Trotter, playing for Marylebone, won a splendid Trotter, giving seven wickets for 60 runs, and Trotter seven wickets for 65 runs.

THE FIRST CRICKET MATCH IN ENGLAND.

London, 7th May.

In connection with the next visit of an Australian cricket team to England, Lord Hawke, Captain of the Yorkshire County Cricket Club, says that the Marylebone Club ought to select the players and grounds for the first matches, and that one test match ought to be played in Yorkshire.

Unless the test matches are under the auspices of the Marylebone Club Yorkshire will not allow its players to appear.

THE WHEAT MARKET.

London, 7th May.

There has been a further advance of a florin in the price of wheat, and this has had the effect of halting business.

France is buying every available cargo of extra-prime 32-6d per quarter has been put up California wheat due to arrive.

BIRTHING DEVELOPMENT IN AFRICA.

London, 7th May.

Mr. Chamberlain, Secretary of State for the Colonies, in the course of a speech made in the House of Commons, has taken upon the policy of the British South Africa Company in Rhodesia that has Major's Government had under consideration the question of a guarantee for the construction of a railway from Rhodesia to Lake Tanganyika.

THE BRITISH RESIDENT IN RHODESIA.

London, 7th May.

Sir William Harcourt, leader of the Opposition, and Mr. John Morley, M.P., for Monmouthshire, protested against the action of the Government in a reversal of the national commercial policy.

BRITISH RESIDENT IN RHODESIA.

London, 7th May.

Sir Edward Montagu, Sir Marshall Heron, K.C.M.G., Acting Administrator in Zululand, has been appointed British Resident in Rhodesia.

London, 8th May.

British and French, Sir John Murray, M.P., for Montreal, protested against the action of the Government in a reversal of the national commercial policy.

SPORT AND ANECDOTE.

London, 7th May.

Sir Francis Clare Ford, British Ambassador at Rome, is about to retire. He will be succeeded by Sir Philip Currie, British Ambassador at Constantinople.

SHOOTING AFFRAY AT CAIRO.

London, 9th May.

A serious shooting affray has taken place in the Kheil's Club, Cairo. Sadat, the Kheil's son, killed Ahmed Faud, son of Ismail Pasha, uncle of the Kheil, and wounded him. Ahmed Faud, however, is expected to recover.

THE INCIDENT IN THE QUEEN OF THE BELGIANS.

London, 8th May.

As the Queen of the Belgians was driving in the park in Laken, a suburb of Brussels, yesterday her carriage was overturned, and she was thrown into the lake. The Queen was rescued.

THE BRITISH EMBASSY IN ROMÉ.

London, 8th May.

Sir Francis Clare Ford, British Ambassador at Rome, is about to retire. He will be succeeded by Sir Philip Currie, British Ambassador at Constantinople.

SHOOTING AFFRAY AT CAIRO.

London, 10th May.

Lord Chamberlain's great speech at Birmingham, hinting at the prospect of an Anglo-American alliance caused great enthusiasm amongst the American regiments, giving rise to wild demonstrations of approval.

The alliance, still generally discussed throughout Great Britain, on the Continent, Germany, and Italy, is easily foible, but Russia attaches little or no importance to it.

APPEALS IN ITALY.

London, 9th May.

The publics of the Alpine Parliament has been celebrated at Turin, Italy, with great rejoicing.

In the course of a speech, King Humbert said that the Parliamentary institutions of Italy were inspired by Piedmontese traditions.

The event celebrated was the granting by King Charles Albert of Savoy, in 1848, of a constitution to Piedmont, on which occasion the King openly espoused the cause of Italian regeneration against Austria.

LONDON, 9th May.

Serious socialist riots have taken place in Milan. It was not until after an hour's fierce fighting that the troops were able to quell the outbreak.

Six hundred persons were wounded. A mob of rebels, armed with revolvers, attempted to force an entrance into the city, but they were repelled, several of their number being killed.

Adelaide, 12th May.

The Italian riots are now said to be over. wholesale. It is asserted on good authority that they are connected with a massive revolt planned by the rebels. The condition of Milan is reported to Paris during the reign of Louis Philippe.

Barriques have been erected in the main streets, and thousands of civilians have been killed by the soldiers using cannon to quell the disturbances. The riots have reached Naples, and it is expected they will extend to Rome.

Adelaide, 13th May.

It has been found necessary to place all the Italian military under military control.

The conductors of several Societies; newspapers have been arrested, on a charge of inciting the populace to revolt.

It is rumoured that the Vatican intends re-operating with the insurance companies to cover the loss of the temporal power.

Thousands of Italians, resident in Switzerland, are returning to their homes.

Adelaide, 17th May.
Matters in Italy, where rioting has been so prevalent lately, are now assuming a more quiet aspect.

Adelaide, 19th May.
The Italian government are supplying cheap wheat to the masses.

Throughout the riots which have been taking place in Italy the army remained loyal, and thus helped to materially check the uprising.

MINE-SAVING.

The methods of saving adopted are almost as various as the mines themselves. The simplest and most effective method in the earliest means of saving the value of gold dust is what is known as the "pan-trick." In this the prospector, who has a small quantity of gold dust, takes a flat tin, dips his fingers in water, and then rubs the tin over the pan, so that the water will wash off the gold dust, leaving the tin dry. This is the expedient of shooting the dust into the dish. This month, however, he has an opportunity of doing so without being observed. Sometimes the gold dust is left in the pan, and the water is quickly washed off, but across the heavy waves comes the dazzling light from the American cousin vessel. The immediate result of this is that the "pan-trick" is discredited.

The speculator likes to have a pocketful of gold dust, and when he has got it, he takes a short piece of string, and ties the gold dust to the end of the string, so that if it is washed into the dish, it will be lost.

He then dips the dish into the water, and when the water is washed off, the gold dust is lost.

He then dips the dish into the water again,

and when the water is washed off, the gold dust is lost.

He then dips the dish into the water again,

and when the water is washed off, the gold dust is lost.

He then dips the dish into the water again,

and when the water is washed off, the gold dust is lost.

He then dips the dish into the water again,

and when the water is washed off, the gold dust is lost.

He then dips the dish into the water again,

and when the water is washed off, the gold dust is lost.

He then dips the dish into the water again,

and when the water is washed off, the gold dust is lost.

He then dips the dish into the water again,

and when the water is washed off, the gold dust is lost.

He then dips the dish into the water again,

and when the water is washed off, the gold dust is lost.

He then dips the dish into the water again,

and when the water is washed off, the gold dust is lost.

He then dips the dish into the water again,

and when the water is washed off, the gold dust is lost.

He then dips the dish into the water again,

and when the water is washed off, the gold dust is lost.

He then dips the dish into the water again,

and when the water is washed off, the gold dust is lost.

He then dips the dish into the water again,

and when the water is washed off, the gold dust is lost.

He then dips the dish into the water again,

and when the water is washed off, the gold dust is lost.

He then dips the dish into the water again,

and when the water is washed off, the gold dust is lost.

He then dips the dish into the water again,

and when the water is washed off, the gold dust is lost.

He then dips the dish into the water again,

and when the water is washed off, the gold dust is lost.

He then dips the dish into the water again,

and when the water is washed off, the gold dust is lost.

He then dips the dish into the water again,

and when the water is washed off, the gold dust is lost.

He then dips the dish into the water again,

and when the water is washed off, the gold dust is lost.

He then dips the dish into the water again,

and when the water is washed off, the gold dust is lost.

He then dips the dish into the water again,

and when the water is washed off, the gold dust is lost.

He then dips the dish into the water again,

and when the water is washed off, the gold dust is lost.

He then dips the dish into the water again,

and when the water is washed off, the gold dust is lost.
